Treasury Dept

January 28, 2019

Job Posting #24-01-19

Please see nreymer.ca for my online portfolio/resume.

I am applying to the system support coordinator position posted at the corporation of the city of St. Thomas.

I believe that I am an excellent candidate for this position because I bring with me over six years of experience in supporting software, hardware, and network systems. During this time, I developed a strong understanding of network architecture and administration as well as information technology. Problem solving and communication are crucial skills that I cultivated in my previous positions while professionally handling user complaints, troubleshooting, and diagnosing problems. In order to promote efficient and transparent communication, I learned to explain technical issues in both advanced and general terms.

I would very much like to discuss opportunities with you. To schedule an interview, please call me at 519-859-2953. You can leave a voice message at any time, and I will return your call.

I look forward to speaking with you soon.
Sincerely,

Nathan Reymer
